WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Mrs. Sallie E. Cole, living at 218 N. Twenty-first Street, Richmond, Va., says: "I can speak very highly of Doan's Kidney Pills and know them to be a reliable kidney remedy. Both my husband and myself used them and the results were very satisfactory. I suffered for some time with pain in my back and kidney region at times so acute as to prevent me from attending to my household duties. My kidneys were much too frequent in action and during the night I had to arise many times on account of the water. My husband, who was also suffering from the same case of kidney complaint, procured a box of Doan's Kidney Pills, and they cured us both of the kidney trouble. I am glad to give Doan's Kidney Pills my hearty recommendation."

For sale by all dealers. Price 50 cents. Foster-McClellan Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.
